## Mission Statement

Leadership Jackson County is celebrating its 28th Anniversary. This is an innovative program that assists in preparing current and emerging community leaders for leadership positions in the region. The program is directed by a Leadership Jackson County Standing Committee of community leaders who are alumni of the program. The purpose is to provide a forum for and increase the awareness of potential leaders by giving them an intense nine month course encompassing a broad scope of community concerns. It fosters relationships, inspires stewardship and encourages self discovery. Leadership Jackson County is designed to promote volunteer leadership resources within the community on a continuing basis.

## History of Leadership Jackson County

In 1989, the Ocean Springs and Jackson County Chambers of Commerce together established a community long-range development plan. One of the objectives of this plan was to cultivate new leaders for the community. With the support of area businesses and industries, the first Leadership Jackson County class of 1989-1990 was launched.
